Skills and Apprenticeships

Tuesday 16th March 2010 – Central London

"Skills are a key part of our plan for economic recovery and, as such, an urgent challenge. The country's future can only be built by educated, enterprising people with the right skills; the skills demanded by modern work in a globalised economy."

Lord Mandelson, Skills for Growth Strategy, November 2009

Capita's National Skills and Apprenticeships Conference follows the recent publication of the *Skills for Growth Strategy* and the introduction of the *Apprenticeships, Skills, Children and Learning Act*. It gives delegates in depth advice and guidance on delivering a skills system that responds to the demands of today's job market and is equipped to help drive economic growth going forward.

Opening with a unique opportunity to hear from the three main political parties, this conference provides delegates with insight into their future plans for overhauling the skills system in the UK.

Other core issues to be addressed at the conference include:

- Benefits of a **simplified skills system**
- Implications of the **funding transfer for post-16 learning and skills**
- Ensuring the **supply of skills matches demand** in the local area
- **Engaging employers** in the skills and apprenticeships agenda
- **Empowering adult learners** to equip themselves for future jobs

Bringing together key stakeholders and expert practitioners, this conference offers delegates practical examples to improve and expand skills provision in their own areas.
