Transforming NHS Payment Systems
Tuesday 24th February 2015 – Central London

About the Event

“We will continue to redesign the payment system so that there are rewards for improvements in quality...measuring what matters...and ensuring this data increasingly informs payment mechanisms”
Simon Stevens
NHS Five Year Forward View
October 2014

One of the key themes proposed within the 2015/16 National Tariff Guidance is the encouragement of a transition to new payment designs at scale and pace. Our Transforming NHS Payment Systems conference has been designed to support the process of testing new NHS payment systems and currency models and provides an opportunity to learn from examples of payment system innovation currently being pioneered within the NHS and beyond.

The recent NHS Five Year Forward View highlights the need for the adoption of new models of care. To achieve this, urgent reform of the payment system is required to adapt to the changing patterns of care. This timely event explores the emerging ideas for long term payment system redesign and provides a chance to examine a range of case study and proof of concept examples of promising new payment approaches. Once tested, Monitor and NHS England are keen to see new approaches rolled out at pace and scale. This unique conference will provide the information and learning required to inform and enable that process. Book your place today to join providers and commissioners at the leading edge of payment system innovation.
